MEDIA PITCH FOR IN/VISIBLE THEATRE

In/Visible Theatre is an experiential acting company designed to serve the people of the high country. It attempts to answer the deepest questions that most do not dare to ponder by creating an artistic reality. The productions at this theatre are unlike those of most theatre companies because of the intense thought and consideration that goes into their “slow-simmer” production process. In/Visible Theatre strives to shine light on new perspectives, push social engagement, and emphasize unity within our community.
